

First Grade

Spring - 2010

Our current focus is keyboarding. First Graders know how to find the F and J keys with their eyes closed (hint, find the touch bumps). Using the application *Type to Learn Jr.* has helped everyone become more confident finding letters. We are working toward typing words and sentences in a document with ease.

Students enjoy accessing the website abcya.com for activities related to class such as manipulating the mouse, identifying different forms of technology and mastering the keyboard. There is always an opportunity for “free choice” after the designated activity is completed.

Appleworks Paint continues to be a favorite for creative expression including December Advent Wreaths, January Snowmen, February Valentines, and St. Patrick’s Day Symbols. Coming up next we will explore signs and symbols of the Risen Christ.

Happy Easter!

Anne Susalski

SLEs for computer class

1. a, b

2. a, b, c, d, e

3. a, b, c, d

4. b

5. b, c
